FUNNEL STRATEGY

Awareness — top of funnel

Broad video and image ads targeting students aged 17-28 across Dhaka, Chittagong, Sylhet, and Rajshahi — interested in education, English learning, and study-abroad destinations.

2 Consideration — middle of funnel

Retargeted video viewers and page engagers with Meta lead form ads — offering a free consultation, IELTS/PTE score estimate, or study-abroad eligibility check as a lead magnet.

3 Conversion — bottom of funnel

Warm leads retargeted with urgency-led creatives (limited seats, batch start dates) and student testimonial videos to push enrolment decisions and close sales.

AUDIENCE TARGETING

- Interest-based: IELTS, PTE, study abroad, university admissions
- Lookalike audiences from enrolled student data
- Retargeting: 50%+ video viewers, lead form openers, website visitors
- Geo: Dhaka, Chittagong, Sylhet, Rajshahi

CREATIVE APPROACH

- Student success stories and testimonials as primary creative
- Short-form video (15-30 sec) showing IELTS score improvements
- Carousel ads: study destinations, visa rates, scholarships
- Bengali copy for emotion; English for aspiration
- Weekly A/B testing of 3-4 creative variants per ad set
- Lead magnets: Free IELTS mock test, eligibility check
